PROFILE

Determined and detail oriented developer focused on delivering seamless user experiences created with an emphasis on minimalism and clarity, augmented by dynamic and responsive design. Demonstrated leadership, confidence, and critical analytical skills throughout M.A. degree.

PROJECTS

ALAMBI www.alambi-blog.com www.github.com/domdit/Alambi

Developed a blogging engine based on the Flask micro-framework. Includes a no-coding necessary setup. Integrated with an easy to use UI/UX allowing for posting, commenting, changing the layout creating unique themes.

SIAN STREET FOOD   www.sianstreetfood.com www.github.com/domdit/sian

Developed a website for a South East Asian catering start-up company with Flask. Includes an admin page that allows for customization of many aspects of the site.

BULEKU BITHE   www.buleku.domdit.com www.github.com/domdit/buleku

Developed the first online anglophone Manchu Dictionary with HTML and Javascript. A simple web app that searches through a database of Manchu-Chinese-English dictionaries.
